EVOA PROPULSION ANNOUNCED AS PRESENTING SPONSOR OF THE CHARGED ELECTRIC PAVILION AT THE 2024 MIAMI INTERNATIONAL BOAT SHOW

[MIAMI, FL] — EVOA is proud to announce its position as the presenting sponsor of the Charged Electric Pavilion at the 2024 Miami International Boat Show. Geared towards revolutionizing the marine market, EVOA is excited to showcase its commitment to innovation and sustainability.

With deep roots in the marine industry, EVOA and its team boast centuries worth of diverse marine expertise. Leveraging this extensive wealth of knowledge, EVOA continues to push the boundaries of the rapidly evolving segment of electric boating with efforts focused on providing an on-water experience that is both powerful and peaceful.

The Charged Electric Pavilion will be a focal point of the 2024 Miami International Boat Show, and EVOA is thrilled to be involved as a presenting sponsor and elevate awareness for this exciting new frontier.

Additionally, EVOA is excited to showcase its broad array of electrified performance products during the show. Visitors to the EVOA booth can explore a suite of electrified propulsion options including direct drives, stern drives, jet drives, and two development partnership boats, while also learning about EVOA's advanced engineering partners that truly set the company apart. EVOA will also be unveiling a groundbreaking new outboard motor, promising to redefine the industry standard.

EVOA invites all attendees to stop by booth MB1503 or the Charged Electric Pavilion. Whether you're a seasoned industry professional or a marine enthusiast, there's something for everyone to discover.
